Srimonto Ghosh
Vice President, Origination & Customer Solutions
Chevron New Energies

Srimonto Ghosh is the Vice President of Origination & Customer Solutions for Chevron New Energies. In this role he is responsible for sales, customer engagement and developing tailored customer solutions across Chevron's lower carbon product portfolio including carbon capture, utilization & storage; hydrogen; offsets and emerging technologies.

Ghosh brings over 26 years of experience from across the energy value chain in upstream, midstream, and power, including eight years in New Energies businesses. Prior to his current role, Srimonto led our emerging technologies business globally, managing our investments, projects, and developments in novel geothermal and other lower carbon emerging technologies.

Previously, Srimonto led Chevron's renewable power strategy in Chevron Pipeline and Power, as well as the development of the projects for renewable energy supply to our Mid-Continent business unit. Srimonto joined Chevron (Texaco) through the MBA leadership development program and has held diverse roles with increasing responsibility over 16 years with the company. Outside Chevron he has worked with Reliance Industries, Jacobs, and been an energy focused entrepreneur for five years with a successful exit.

Srimonto is a lean six sigma blackbelt, holds a Bachelor of Engineering in Mechanical from MIT, Manipal, India, and an MBA from RH Smith School, University of Maryland. Srimonto is married and they enjoy travelling, tennis and spending time with friends and family together.
